

GET TURNED ON BY ELECTRICITY AGAIN!

POWER UP YOUR COMMUNITY SCHEME AND GET ENERGY INDEPENDENCE WITH SOLAR

You've got better things to worry about than **constant power outages** and **rising electricity bills**. Alternative options like generators are expensive to run, require maintenance and are noisy.

Luckily, battery storage technology has advanced to a point where it is the viable choice for many South African's to **switch to solar and battery storage as a sustainable alternative** to grid-based power supply.

STS offers **affordable, hassle free** solar and battery solutions with **great financing** options ensuring **real savings** and **energy independence**. Plus, we provide expert guidance, unmatched service and savings you deserve whilst **increasing property value!**

ENJOY ELECTRICITY AGAIN!

SOLAR ENERGY

CapEx free Solar will be installed on a consumption-based tariff structure over a 25 year period.

ENERGY STORAGE

A battery storage solution will be bolted on to the solar solution and priced as a monthly fixed rental charge (escalating at a fixed rate) over the 10 year period.

ENERGY INDEPENDENCE

Together, the solar installation will generate real savings from day 1 whilst the battery storage rental solution will ensure energy security and grid independence so you can have quality of life!
